

## **Library on all scientific articles on compression Therapy – 9/2005**

Reference List Book „Compression Therapy of the Extremities“ by Partsch, Rabe, Stemmer

### **Chapter 1 - Introduction**

### **Chapter 2 – Historical Overview**

### **Chapter 3 – Anatomy**

### **Chapter 4 – Venous Return**

### **Chapter 5 – The Basis of Compression**

**Jünger M:** Anpressdruckmessung aus heutiger Sicht: Schein und Wirklichkeit. Vasomed 2005 ; 17 : 27, Lit.: 0/0; Publ. Extended Abstract; Spr.: Dt; Abstr.: 0;

**Uhl JF, Drapier S, Gaeid I, Lun B:** Pression Théorique et Pression Mesurée in situ des Bas Médicaux de Compression: Apport de l'Imagerie Médicale et des Techniques de Simulations numériques. Phlébologie 2005 ; 58 : 131 -138, Lit.: 6/0; Publ. Experimental Study; Spr.: Fr; Abstr.: Fr, En;

### **Chapter 6 – Mobilisation**

### **Chapter 7 – Compression Using Mechanical Devices**

**Alpagut U, Dayioglu E.** Importance and advantages of intermittent external pneumatic compression therapy in venous stasis ulceration. Angiology 2005; 56(1):19-23. Number of references/number of self citations: 14/0, Type of publication: clinical study, not controlled, Language: en, Language of abstract: en

**Delis KT, Nicolaidis AN.** Effect of intermittent pneumatic compression of foot and calf on walking distance, hemodynamics, and quality of life in patients with arterial claudication: a prospective randomized controlled study with 1-year follow-up. Ann Surg 2005; 241(3):431-441, Number of references/number of self citations: 61/9, Type of publication: randomized controlled trial, Language: en, Language of abstract: en

**Felty CL, Rooke TW.** Compression therapy for chronic venous insufficiency. Semin Vasc Surg 2005; 18(1):36-40, Number of references/number of self citations: 4/0, Type of publication: summary. Language: en, Language of abstract: en

**Harfouche IN, Theys S, Scavee, Hanson P, Schoevaerds JC, Sturbois X:** Venous calibre reduction after intermittent pneumatic compression. Phlebology 2005; 20: 38-42, Lit.: 38/0; Publ. Clinical Study; Spr.: En; Abstr.: En;

**Lachiewicz PF, Kelley SS, Haden LR.** Two mechanical devices for prophylaxis of thromboembolism after total knee arthroplasty. A prospective, randomised study. J Bone Joint Surg Br 2004; 86(8):1137-1141. Number of references/number of self citations: 24/0 Type of publication: randomized controlled trial, Language: en, Language of abstract: en

**LayFlurrie K.** Assessment and good technique are key to effective compression therapy. Prof Nurse 2005; 20(7):31-34. Number of references/number of self citations: 19/0, Type of publication: summary. Language: en, Language of abstract: en

**Montgomery JS, Wolf JS, Jr.** Venous thrombosis prophylaxis for urological laparoscopy: fractionated heparin versus sequential compression devices. J Urol 2005; 173(5):1623-1626., Number of references/number of self citations: 20/0, Type of publication: clinical trial, not controlled, Language: en, Language of abstract: en

**Morris RJ, Elsaid M, Elgazzar AH, Zaid TM, Evans WD, Woodcock JP.** The effect of intermittent pneumatic compression on the bone uptake of 99mTc-labelled methylene diphosphonate in the lower limb. Arch Orthop Trauma Surg 2005. , Number of references/number of self citations: 26/1 Type of publication: clinical trial, not controlled. Language: en. Language of abstract: en

**Ramaswami G, D'Ayala M, Hollier LH, Deutsch R, McElhinney AJ.** Rapid foot and calf compression increases walking distance in patients with intermittent claudication: results of a randomized study. J Vasc Surg 2005; 41(5):794-801, Number of references/number of self citations: 30/0, Type of publication: randomized controlled trial, Language: en, Language of abstract: en

**Wienert V, Foldi E, Schmeller W, Rabe E:** Leitlinie Lipödem der Beine. Phlebologie 2005; 34: 42-44, Lit.: 34/1; Publ. Guideline; Spr.: Dt; Abstr.: 0;

## Chapter 8 – Bandages

**Charalambides C, Beer M, Melhuish J, Williams RJ, Cobb AG.** Bandaging technique after knee replacement. Acta Orthop Scand 2005; 76(1):89-94. Number of references/number of self citations: 9/0 Type of publication: clinical study, not controlled, Language: en, Language of abstract: en

**Davis J, Gray M.** Is the Unna's Boot Bandage as Effective as a Four-Layer Wrap for Managing Venous Leg Ulcers? J Wound Ostomy Continence Nurs 2005; 32(3):152-156, Number of references/number of self citations: 25/0, Type of publication: review, Language: en, Language of abstract: en

**Felty CL, Rooke TW.** Compression therapy for chronic venous insufficiency. Semin Vasc Surg 2005; 18(1):36-40, Number of references/number of self citations: 4/0, Type of publication: summary. Language: en, Language of abstract: en

**Field H.** Fear of the known? District nurses' practice of compression bandaging. Br J Community Nurs 2004; Suppl:S6-15. , Number of references/number of self citations: 9/0 Type of publication: questionnaire, Language: en, Language of abstract: en

**Fink AM.** [Compression therapy in the treatment of acute deep vein thrombosis]. Wien Med Wochenschr 2005; 155(1-2):11-13. Number of references/number of self citations: 17/1 Type of publication: summary, Language: de, Language of abstract: en, de

**Gohel MS, Barwell JR, Earnshaw JJ, Heather BP, Mitchell DC, Whyman MR et al.** Randomized clinical trial of compression plus surgery versus compression alone in chronic venous ulceration (ESCHAR study)--haemodynamic and anatomical changes. Br J Surg 2005; 92(3):291-297. , Number of references/number of self citations: 28/2, Type of publication: randomized clinical trial, Language: en

**Gohel MS, Barwell JR, Wakely C, Minor J, Harvey K, Earnshaw JJ et al.** The influence of superficial venous surgery and compression on incompetent calf perforators in chronic venous leg ulceration.

Eur J Vasc Endovasc Surg 2005; 29(1):78-82. , Number of references/number of self citations:21/2, Type of publication: clinical trial, not controlled, Language: en, Language of abstract: en

**LayFlurrie K.** Assessment and good technique are key to effective compression therapy. Prof Nurse 2005; 20(7):31-34. Number of references/number of self citations: 19/0, Type of publication: summary. Language: en, Language of abstract: en

**Slagsvold CE, Stranden E.** Venous leg ulcers. Tidsskr Nor Laegeforen 2005; 125(7):891-894. , Number of references/number of self citations: 20/0, Type of publication: summary, Language: nor, Language of abstract: nor

**Vin F, Benigni JP.** Compression therapy. International Consensus Document Guidelines according to scientific evidence.

Int Angiol 2004; 23(4):317-345. , Number of references/number of self citations: 185/0  
Type of publication: consensus document, Language: en, Language of abstract: en

## Chapter 9 – Compression Stockings

**Benigni JP, Allaert FA:** La Compression est-elle un Bon Antalique Veineux ? Phlebologie 2005 ; 58 : 83 -86, Lit.: 13/20; Publ. Communication; Spr.: Fr; Abstr.: Fr, En

**Chatard JC, Atlaoui D, Farjanel J, Louisy F, Rastel D, Guezennec CY.** Elastic stockings, performance and leg pain recovery in 63-year-old sportsmen.

Eur J Appl Physiol 2004; 93(3):347-352., Number of references/number of self citations: 27/1  
Type of publication: clinical study, not controlled, Language: en, Language of abstract: en

**Felty CL, Rooke TW.** Compression therapy for chronic venous insufficiency.

Semin Vasc Surg 2005; 18(1):36-40, Number of references/number of self citations: 4/0, Type of publication: summary. Language: en, Language of abstract: en

**Fink AM.** [Compression therapy in the treatment of acute deep vein thrombosis].

Wien Med Wochenschr 2005; 155(1-2):11-13. Number of references/number of self citations: 17/1  
Type of publication: summary, Language: de, Language of abstract: en, de

**Gohel MS, Barwell JR, Earnshaw JJ, Heather BP, Mitchell DC, Whyman MR et al.**

Randomized clinical trial of compression plus surgery versus compression alone in chronic venous ulceration (ESCHAR study)--haemodynamic and anatomical changes.

Br J Surg 2005; 92(3):291-297. , Number of references/number of self citations: 28/2, Type of publication: randomized clinical trial, Language: en

**Gohel MS, Barwell JR, Wakely C, Minor J, Harvey K, Earnshaw JJ et al.** The influence of superficial venous surgery and compression on incompetent calf perforators in chronic venous leg ulceration.

Eur J Vasc Endovasc Surg 2005; 29(1):78-82. , Number of references/number of self citations:21/2, Type of publication: clinical trial, not controlled, Language: en, Language of abstract: en

**Hsieh HF, Lee FP.** Graduated compression stockings as prophylaxis for flight-related venous thrombosis: systematic literature review.

J Adv Nurs 2005; 51(1):83-98. , Number of references/number of self citations:67/0  
Type of publication: review, Language: en, Language of abstract: en

**LayFlurrie K.** Assessment and good technique are key to effective compression therapy.  
Prof Nurse 2005; 20(7):31-34. Number of references/number of self citations: 19/0, Type of  
publication: summary. Language: en, Language of abstract: en

**Limpus A, Chaboyer WP, Purcell C, Schluter PJ, Gibbs H, Beller E, Hetherington R** : Effect  
of body position and graduated compression stocking length on femoral blood flow velocity.  
Phlebology 2003; 18 (4): 198- 202, Lit.: 15/0; Publ. Experimental Study; Spr.: En; Abstr.: En;

**Slagsvold CE, Stranden E.** Venous leg ulcers.  
Tidsskr Nor Laegeforen 2005; 125(7):891-894. , Number of references/number of self citations:  
20/0, Type of publication: summary, Language: nor, Language of abstract: nor

**Strölin A, Volkert B, Häfner HM, Jünger M:** Medizinische Kompressionsstrumpfe bei CVI-  
Patienten.  
Phlebologie 2005; 34: 34 -41, Lit.: 18/1; Publ. Clinical Study; Spr.: Dt; Abstr.: Dt, Fr, En;

**Vin F, Benigni JP.** Compression therapy. International Consensus Document Guidelines  
according to scientific evidence.  
Int Angiol 2004; 23(4):317-345. , Number of references/number of self citations: 185/0  
Type of publication: consensus document, Language: en, Language of abstract: en

## **Chapter 10 – Compression and Mobilization Strategies**

**Partsch B, Pannier F, Partsch H, Rabe E** : Kompressionsstrümpfe nach tiefer  
Beinvenenthrombose im internationalen Vergleich.  
Vasomed 2005; 17: 82- 87, Lit.: 10/10; Publ. Questionnaire; Spr.: Dt; Abstr.: Dt, Fr, En;

**Partsch H** : Die phasengerechte Kompressionsbehandlung beim Ulcus cruris venosum.  
Vasomed 2005; 17: 29, Lit.: 0/0; Publ. Extended Abstract, Spr.: Dt; Abstr.: 0;

**Wienert V, Partsch H, Gallenkemper G, Gerlach H, Jünger M, Marshall M, Rabe E:** Leitlinie  
Intermittierende pneumatische Kompression (IPK oder AIK).  
Phlebologie 2005; 34: 176- 180, Lit.: 61/0; Publ. Guideline; Spr.: Dt; Abstr.: 0
